

CPS's Peer Support and Mentorship Groups

CPS's Peer Support and Mentorship Groups are designed to assist in a child's social development and provide an opportunity for peer interaction. The groups focus on improving communication and self-awareness through creative activities and discussions that are delivered to children on a level that they can understand. Groups are based on age and developmental level, and placement in the appropriate group is determined following a clinical interview with our Intake Specialist.

For more information on CPS's Peer Support and Mentorship Groups or to schedule a clinical interview with our Intake Specialist, please contact **Sandra Cirulnick at 954.385.6292.**
